The « IMPRESSIONISMS ROUTES Network labelled as « European Year of Cultural Heritage 2018”

Created by the European Commission and the Parliament, the European Year of Cultural Heritage 2018 aims to promote heritage as a central element of cultural diversity and international dialogue, to promote best practices for the preservation and safeguarding of heritage as well as to develop its knowledge among a large and diversified public.

The election of the project "Impressionisms Routes" to the European label gives it an incontestable credibility and visibility, it allows the members of Eau & Lumière (communities, cultural spaces, partners ...) to fully participate in this European program of cultural awareness and display throughout the year 2018 the corresponding logo.

The project was elected "because of its qualities" recognized by the French Ministry of Culture.

Multiple events will be organized in different countries, "Impressionisms Routes" will obviously take its share ...

Informations: Georges Lucenet, Vice-President and Général Delegate
