INFOFLASH N° 36

The “Route Cezanne du Tholonet” joins Impressionisms Routes©

The Route Cezanne, which connects Aix-en-Provence over 4.7 km to the village of the Tholonet, is the only road in France classified as a Historic Monument! It is to the friendship of André Masson and André Malraux that we owe this distinction made in 1959 which celebrates an exceptional site magnified and known throughout the world thanks to the talent of Paul Cezanne! As a source of inspiration, the Route has attracted many artists, writers, poets and philosophers who have been able to flourish in these places.

The *Route Cezanne du Tholonet Association*, created in 2006, is recognized as a Public Utility. Its mission is to protect the incomparable beauty of the landscapes of the Montagne Sainte-Victoire, sublimated by the gaze of Paul Cezanne and brings this site to life by helping those who wish to follow in the footsteps of the artist!

The Impressionisms Routes© network welcomes the Route Cezanne du Tholonet!
