FAMM in Mougins: A New Museum that (finally) brings Women Artists to the forefront!

On June 18, 2024, the first private museum in France dedicated exclusively to women artists was officially inaugurated ! This original cultural space echoes the National Museum of Women in the Arts in Washington and the Frauenmuseum in Bonn…

Spread over 4 levels, it traces the major movements of modern art from the end of the 19th century to contemporary art and presents an exhaustive look at impressionism and surrealism, from abstract expressionism to figurative art from the 60s, to the new trends of the 21st century... A subtle selection of key artists such as Frida Kahlo, Dora Maar, Niki de Saint Phalle, Lee Krasner, Louise Bourgeois, Leonor Fini, Marie Laurencin and Françoise Gillot without forgetting the Impressionists : Berthe Morisot, Mary Cassatt, Eva Gonzalès or Blanche Hochédé-Monet.

Christian Levett, an art collector for nearly thirty years and recognized for his philanthropic commitments to the arts and other causes, is at the origin of this ambitious project. Its collection includes more than 2,000 works, of which 500 were created exclusively by female artists, demonstrating its commitment to restoring to women the place they deserve in the art world.

Impressionisms Routes© welcomes this new initiative with great interest, as it aligns with the actions carried out by its network during the coming months in connection with the opening of the Berthe Morisot house in Bougival in September 2024. We wish the new FAMM and its Director, Leisa Paoli, full success !
